

Points to ponder

1

Taxonomy

Do we know the name of the plant species?

2

Pathway

Do we know how the species came in?

3

Impact

Has the scientific assessment of impact done?

4

Stage

Which stage of invasion is the species in now?

5

Stakeholders

Who are the stakeholders?

6

Control

Which is the best control method?

7

Restoration

Do you have a restoration plan?

8

Communication

How best can you communicate your results?

thank you
